Description and Pedigree.

Description and Pedigree.

Lucifer is a black iron gray, 5 years old, with heavy white mane and tail; 15% hands high, and is a horse eminently calculated to produce stock suited to every purpose for which the horse is required. Being himself beautiful in appearance, of proper size, faultless in form, mild and gentle in disposition, with action both for harness and saddle rarely equalled, very few, if indeed any, horse in Kentucky of his age can show greater trotting speed in harness, and it has been with great difficulty that he has been restrained from going all the saddle gaits, being sired by old Snowstorm, who went one gait as naturally as another, and all with unparalleled speed and style, and produced more fine saddle and harness horses in the two seasons he made in Kentucky than any other horse known. He was of the pure Norman French breed from Canada, and his colls are commanding wherever found extravagant prices. Lucifer's dam was a large brown mare; blood unknown; was a natural pacer and could, without training, pace her mile in 3 minutes.

If I invite the attention of breeders to this young horse, at his stand, where I have a good track, and where persons wishing to breed can have an opportunity of witnessing his speed.

THE VESPER GAS,

OR AIR LIGHT.

The Cheapest, most Brilliant, and most Conveni

The Cheapest, most Brilliant, and most Convenient Artificial Light in the World:

The Vesper Gas Light has won for itself a reputation of relegance, economy, safety, and simplicity far beyond any other artificial light. The Vesper Gas flame and fixtures precisely resemble in form those of coal gas but in brilliancy and purity of light it possesses a cided advantage over even Louisville coal gas. It requires no chimney; there is no need of daily trimming of wick; and the construction of the fixture is so simple that it is not liable to get out of order, and a child can manage it readily. The gas burned in the Vesper fixtures is generated from pure coal oil, without any admixture of alcohol or other foreign ingredient. It is entirely free from odor while burning, as, by a simple contrivance, the vapor of the oil is mixed with the atmosphere, producing perfect combustion and a most intense light. The light has been pronounced, by those who have had it in constant use for months, as most pleasant to the eye while reading or sewing, there being no flicker or unsteadiness in the flame. The Vesper Gas Light is portable, and can be used in town or country—in fact, wherever artificial light is required. The fixtures themselves are adapted in styles to suit all tastes, from the plain single-light burner to the most coally chandelier. Each chandelier is perfect in itself; there is no outlay to be made for service pipes. The gas is generated in the burner, and all fixtures, from the cheap single-light burner to the expensive chandelier, are miniature gas-works in themselves. They are sold at prices which do not exceed the cost of the ordinary gas fixtures of similar style and ornamentation. A price list will be sent to any address on application. ent Artificial Light in the World!

Visiting Louisville should not fail to procure the Veper Gas Fixtures for their stores.

Churches, Hotels, Public Halls, and Private Residences

Throughout the State can now be fitted up with these elegant and convenient chandeliers, and other beautiful gas fixtures, which add so much to the appearance of such places, and to the comfort of the home circle and which heretofore could be used only in those favored districts embraced within the coal-gas limits of large cities.

The limited space of an advertisement precludes the insertion here of the numerous testimonials of approval we have received from all quarters. Suffice it to say, scientific men and others who have examined and thoroughly tested the merits of the Vesper Gas Light, pronounce it the best and cheapest artificial light now

nown.

If The prope for respectfully requests responsible merchants in every town and county in the state to correspond with him, believing they will find it to their in erest to aid him in introducing this unequaled light to heir customers.
Vesper Fixtures and Coal Oil prepared expressly fo his Burner kept constantly on hand, and for sale whole sale and retail.

Capitol Hotel, Frankfort Ky. Dec. 10, 1859.

THIS is to certify that Samuel Reynolds of Oswego, New York, has put into my mill, known as the Cove Mill near this place, one of his Concentral Pressure Water Wheels. It is one foot in diameter and takes the place of a 25 feet Overshot Wheel. With the Overshot Wheel I can grind seven and one half bushels of wheat to the hour with a full head of water, and with his (Reynolds Wheel) to-day attached to same burrs, which are 30 inches in diameter, I ground ten and ninetenth bushels of wheat to the hour, and the water used to run, it filled the buckets on the Overshot Wheel two third full.

hird full.

Mr. Reynolds put the Wheel in with the understandng that if it did not grind as much as the Overshot withhe same water he was to take it out and charge nothing
or his tending. for his trouble.

I am satisfied that it will grind one third more to the hour than the Overshot Wheel.

I have been acquainted with Mr. Reynolds about six months and will guarantee that his Wheels will give more power than he claims for them. I therefore commend him to the public.

Messrs. Tallcot & Underhill, Oswego, N. Y. Messrs. Talleot & Underhill, Osnego, N. Y.

Gentlemen: I take pleasure in saying to you that the Water Wheel, (four feet in diameter double issued) purchased of Mr. Samuel Reynolds, the inventor, is now in operation and is giving me entire satisfacton, coming fully up to what it was recommended to do.—My first trial with it was at a very low stage of water, only three and a half feet head. It gave full power, for one run 42 inch Burrs, Bolts, Smut Mill, &c., with the gate \$\frac{1}{2}\$ open. When the water rose so as to give me five feet head I have full for two run of Burrs, doing full work, so that under the full head (six feet) I have s surplus of power.

I have run in backwater to the depth of four feet with no perceivable loss of power. This Wheel is put in place of a thirteen feet diameter Breast Wheel, and gives fully double the power with about the same around of water that it did. I therefore take pleasure in paying you for it, believing that I now have a wheel that will last me 20, perhaps 50 years.

Signed, Very truly yours, Jan. 25, 1860—detwewsm. W. H. McDONALD.

The lessee will be required to give bond with satisfactory personal security for the payment of the rent in quarterly payments and to take good care of the buildings and furniture. The company will reserve the right of discriminating between the bidders.

This is one of the best arranged and well built establishments of the kind in the Western country; and furnished with all of the necessary fixtures and furniture, the whole cost of which was upwards of one hundred thousand dollars. The principal object was to have a first class Hotel kept at the seat of Government for the accommodation of strangers and others who come hitheron business or pleasure. An appropriate building has been erected and furnished in a style of elegance rarely surpassed, and our object is to have a landlord who is in all respects qualified to take charge of it.

The Result in Connecticut. The returns to hand, at this writing, show that the Republicans retain their ascendency in this State-but by a largely reduced majority-

870 The Republicans worked day and night to retain the State. Their ablest orators were imported from abroad, and every "cog," "pulley" and "strap" of their party machine was kept at work with all the energy of desperation if not of despair. Never was the Political Negro made so much of. Never was "the South," and the "encroachments of the South," portrayed in colors so hideous. Never was the Fugitive Slave Law so effectually used to spur up the "friends of freedom" in the Land of Steady Habits; in witness whereof, we need only quote from a harangue said to have been delivered last week, by a favorite Republican orator, Hon. Sidney Dean, formerly a member of Congress from the New London District: "Sooner," said he, "sooner than obey the Fugitive Slave Law, I would SLEEP AND ROT ON EVERY GRATE AND BAR IN EACH OF THE EIGHT COUNTY PRISONS IN THE GOOD OLD COMMONWEALTH OF CONNECTICUT! I have no onets; and if this is treason, make the most of it." We should not have been surprised if nullification talk like this won votes in some of the Abolitionized-Republican districts of Massachusetts or Western New York,-but we are sur prised,-not a little,-that it has found so much apparent favor in Connecticut. Wherefore, it is clear that Republicanism, there, as well as else-

This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself.

Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of unalloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system. giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs mildly but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear o body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recupe rate the energies of the system, and enable th mother to bear up under her exhausting trials and responsibilities. Nursing mothers gene rally prefer the Bitters to all other invigora tors that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase

of bodily strength.
All those persons, to whom we have particu larly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhoea, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary cupation, and nursing mothers, will cons their own physical welfare by giving to Hostetter's Celebrated Stomach Bitters a trial.

CAUTION.—We caution the public agains sing any of the many imitations or counter feits, but ask for Hostetter's Celebrater STOMACH BITTERS, and see that each bottle has the words "Dr. J. OF WILD CHERRY.

THE seal of public approbation has been so unmistakably fixed upon this Medicine that the proprietor feels it to be his duty to call the attention of all those persons to it who are suffering from, or who are threatened with, affections of the hungs or Throat. Its basis is the active principle of the Wild Cherry Bark, but it contains also, in proper proportions, other of the most efficient pectorals of the MATERIA MEDICA. Its component parts and proportions are well known to physicians everywhere, as the proprietor makes no secret of them, and they have met the universal approbation of the faculty, who, as a general thing, prefer using this preparation to any prescription which they can hav prepared by a druggist.

It can be procured from druggists and country stores everywhere.
